

College Academy - STUDENT LIFE INTEGRATION

Student life integration promotes student retention into successive academic programs. Opportunities for cross-cultural fellowship, character growth, and discipleship of students by staff and faculty mentors provide means of holistic education outside of the classroom setting.

1. **Clubs:** Regularly scheduled meetings afford mentors the opportunity to further discuss topics that would not fall within the regular curriculum. Mentors may schedule guest speakers, promote a community service project, and organize students to attend a conference if applicable. Potential appropriate clubs include: Live the Life, Future Business Leaders of America (FBLA), psychology, debate, chess, intercultural, and Bible study.
2. **Community Service:** Students are able to earn community service hours through projects hosted by Student Life. Students pursuing an A.A. are required to serve 80 hours of community service, 20 of which are to be completed at South Florida Bible College. Integration of students from the college, EAP, and College Academy promote cross-cultural and cross-generational collaboration.
3. **Intramural Sports:** Intramural sports allow students to play in regularly scheduled sports with minimal financial and time commitment. Students gain fellowship with teammates and discipleship by the staff willing to coach the sport. Considerations for intramural sports include booking the venue appropriate to the number of students, liability waivers, and faculty/staff involvement.
